

Walls, reimagined.

## Smart walls for smart homes.

With today's active lifestyles, evolving technologies and rapidly changing design tastes, walls matter more than ever. Finally drywall technology has caught up – with performance engineered for how you really live. Habito combines the benefits of old-fashioned plaster with the convenience of modern drywall, bringing homes a new level of flexibility and unmatched performance.

With Habito, TV and other electronic brackets mount simply and securely.

Habito holds up to 30 lb (13.6 kg) on a single screw – with no stud and no wall anchors required.

## Make a difference where it matters.

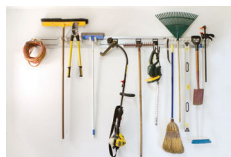

### Living Room

Entertainment systems and interior designs are changing faster than ever. Habito can handle all the updates, without showing all the history.

### Basement

You'll appreciate the long-term advantages of Habito strength and durability here – whether it's a finished basement, or a hardworking storage space.

### Garage\*

Today's garages do it all – storage, utility and everything else. That means plenty of bumps, scrapes and hits. Habito has superior resistance to impact, cracks and penetration from tools, sports gear and other common garage items.

### Play Room

Children have a way with walls... which usually includes some challenging wear and tear. With superior dent, crack and impact resistance, Habito takes the toughest door slams and roughest high-energy play in stride.

# Bring Durability and Resilience into Your Home

## Durable

With the impact resistance of a 5/8" abuse board in a 1/2" product, Habito can take the hits of everyday life, from cleaning equipment and sports gear to furniture and other bulky items.

STANDARD DRYWALL

HABITO DRYWALL

## User friendly

No stud finder, no pre drilling, and no wall anchors. Minimal damage from nails and screws makes decorating and redecorating easy and stress-free.

STANDARD DRYWALL

HABITO DRYWALL

## Strong

Habito holds up to 30 lb (13.6 kg) on a single #10 wood screw.\*\* No stud finder, no predrilling, and no wall anchors. That means you can hang what you want with no prep, no mess, no stress.

For any project, Habito can handle it.

## Sound blocking

The added density of Habito helps prevent sound transmission between rooms, offering better acoustic insulation than standard 1/2" drywall.

\*For non-fire rated wall assemblies only

\*\*Please reference installation instructions for full details
